DAYS 2/3 ~ WEDNESDAY/THURSDAY ~ JUNE 21/22

BRAULIO CARRILLO NATIONAL PARK/ TORTUGUERO NATIONAL PARK

This morning, board your vehicle for a drive to the Rainforest Aerial Tram and begin your trip into the treetops to experience nature and view the forest from a bird's-eye perspective. The tram is situated in a 1,000-acre private reserve of virgin tropical forest that borders the Braulio Carrillo National Park. You access the canopy as you glide along the 1.6 mile circuit in six-passenger gondolas. Your incredible views are enhanced by the quiet, allowing you to listen to the various sounds of the rainforest. The canopy is home to an enormous amount of flora and fauna and in their eagerness to search for light and space many plants have colonized the tree tops turning them into "small ecosystems" - these plants are known as epiphytes. Orchids, bromeliads, different types of moss, ferns, lianas and the bejucos are just some of the species which make up the canopy. The fauna is also very abundant, however it is much harder to observe. Ever present are many types of butterflies and some 350 species of birds have been reported here, such as the Solitary Eagle, Ornate Hawk-eagle, Rufous-vented Ground-cuckoo, Common Potoo, Lanceolated Monklet, Yellow-eared Toucanet, Bare-necked Umbrellabird, and Rufous-winged Tanager. Reptiles like snakes and lizards as well as amphibian species such as "tree frogs" can also be found, as well as mammals - three monkey species, two types of sloths, two kinds of anteater bears and a great number of bat species. From the Aerial Tram you can also appreciate all the different shades of green as well as the various sizes and shapes that the leaves have created as a strategy to capture sunlight.

Resume your drive through banana plantations to a jetty where you board your speedboat for your ride to Tortuguero, which consists of a vast alluvial floodplain. Tortuguero's tropical moist to wet forest is accessible only by small plane or boat, along the famous Tortuguero Canals. This system of rivers and man-made channels parallels the coast and cuts through beautiful primary forest. One of the wettest regions in the country, it is also one of the areas with the greatest biological diversity. There are 11 distinct habitats, ranging from littoral woodland and berm, to very moist high forest and swamp forest where the predominant species can grow up to 130 feet tall such as wild tamarind. The water hyacinths are so thick in places that boats cannot get through. The wildlife is rich and varied with unusually large populations of monkeys, anurans (60 species), birds (309 species) and fish. Some of the resident mammals are the elusive tapir which feeds mainly on plants

and seeds, jaguar (rarely seen), ocelot, kinkajou, collared and white-lipped peccary, Neotropical river otter, tayra, olingo, three-toed sloth, spider monkey and howler monkey. A fascinating mammal that lives in the swamps is the fishing bulldog bat which is one of the largest bats in the country. Three unusual anurans live in this wilderness - the smoky frog which abounds on the banks of streams, the glass frog which has such transparent skin that its internal organs can be seen and the poison dart frog which is dangerous to the touch. Resident avian species include the Green Macaw which prefers to move about in the upper canopy of the rain forests and mainly feeds on seeds of the wild almond tree, Great Curassow,

Keel-billed Toucan, Turkey Vulture, White-necked Jacobin, Violaceous Trogon, Great Tinamou which is a very terrestrial bird that feeds on seeds, berries and small insects caught in its flight path, Neotropical Cormorant, Anhinga, and Montezuma Oropendula. The channels and marshes are home to seven species of land turtles which can be seen sunning themselves on logs in the middle of the water or on islands of floating vegetation. Here, too, you can find the West Indian manatee - one of the most endangered Caribbean species - crocodiles, caimans, and green iguanas. There's also a great variety of crustaceans and about 30 species of freshwater fish, including the gar - considered to be a living fossil and amazing when spawning, eel, bull shark, Caribbean snook, tarpon, red snapper and mackerel.

Renowned naturalist Archie Carr and author of the 1956 book *The Windward Road* did much of his work on sea turtles at Tortuguero and was instrumental in establishing the Caribbean Conservation Corporation (CCC) - his "Casa Verde" research station is still here. In fact, Tortuguero gets its name from the Spanish word for turtle and is the most important nesting site in the entire western half of the Caribbean for the green turtle - which gathers in large numbers to nest between July and October. Other species of sea turtles that also nest on the wide beaches of the park and refuge are the leatherback and hawksbill. The green turtle population is believed to have come perilously close to extinction in the 1960s when nearly every female turtle arriving to nest in Tortuguero was taken for the export market for turtle soup. CCC was established in 1959 specifically to study and protect Caribbean green turtles. Working closely with the Costa Rican government, CCC helped establish Tortuguero National Park in 1970, a move that offered protection to the turtles and strictly limited the number of turtles that could be taken.

The Evergreen Lodge is ideally situated within Tortuguero National Park, the perfect place from which to explore this unique and magical area. One of the canals runs right in front of the lodge and all around you the towering trees and vegetation that adorn the surroundings combine to create a truly beautiful setting. Evergreen offers lodging in 16 lovely bungalows all equipped with en-suite facilities. Because of their design you can virtually do all of your birding without having to leave the comfort of your bed. The bungalow is almost completely surrounded by windows enabling you to be one with the surrounding jungle and wildlife.

DAYS 4/5 ~ FRIDAY/SATURDAY ~ JUNE 23/24

ARENAL VOLCANO

springs make this scene a must.

Your second day will include an exploration of the Arenal National Park in the morning. Your afternoon is at leisure to enjoy the fabulous facilities of your hotel. Tonight, visit the Tabacon Hot Springs for a swim in the thermal pools and dinner. You will be transported to a higher level of energy, which makes Tabacon a one-of-a-kind place. From the heart of the volcano spring fountains of thermo mineral water which form the Tabacon River, running at a soothing 102°F, forming cascades, waterfalls, and natural pools through exotic tropical gardens. The resort features mineral water pools, indoor Jacuzzi, therapeutic massages and mud treatments (at an extra cost), restaurant with international and Costa Rican cuisine, tropical bars, souvenir shop, lockers, changing rooms, and showers. You may want to indulge yourself with a massage, a swim in the hot springs, or any other of the facilities offered before your included dinner here.

Enjoy a delicious breakfast before the return boat ride to Cano Blanco's dock. From there your drive now takes you to Arenal, which is located in the northern region of Costa Rica. The landscapes as you drive along the twisting roads make for incredible photographs, so make sure you have your cameras handy. Costa Rica has so much to offer and no exploration of this amazing diversity would be complete without a visit to the Arenal Volcano, rising to approximately 5,357 feet at its summit, although the exact summit height changes frequently due to the volcanic activity. In 1968, after having lain dormant for more than 400 years, Arenal Volcano erupted with extreme violence and fury. Since that time, it has maintained nearly constant activity that ranges from soundless explosions with large mushroom-shaped clouds of ash overhead, to booming explosions that send hot rocks nearly a mile into the air. Perfect classic cone shape and world class hot

The Arenal Observatory Lodge is located just over one mile from the active crater of Arenal Volcano, and is separated from it by a deep river valley. The location was specifically chosen by scientists from the Smithsonian Institute who needed a close but safe vantage point from which to study the volcano. Rich volcanic soil supports primary and secondary rainforest while waterfalls and crystalline rivers offer sparkling jungle refreshment. A well-marked and manicured trail system traverses the property and provides easy access to the breathtaking natural

beauty. At the Arenal Observatory Lodge, you can enjoy the sound and fury of Arenal Volcano's constant eruptions from the comfort of your room, or from one of the many perfect volcano viewing sites around the lodge. Accommodation is in thirty spacious rooms. The Smithsonian rooms, where you will be staying, are housed in a modern building located about 120 yards from the main lodge, reached via a 134-foot suspension bridge through a small patch of rain forest. These rooms contain huge walls of glass that provide premier views of the volcano from the comfort of your bed, or from the two sitting chairs strategically placed for your enjoyment. The rooms have varnished wood floors, private bathrooms, and one queen- and one full-sized bed. The Smithsonian also features a viewing deck, a conference room and its own volcano museum, with an active seismograph constantly monitoring the volcanic and seismic activity just outside your door.

Everywhere one feels the volcano's commanding presence. The gardens and landscaping are extravagant with color. Natural flowering plants and shrubs were carefully chosen to attract wildlife. Jewel-toned hummingbirds dart from heliconia to oleander and brilliant butterflies adorn the blooms. Other attractions include a waterfall, just a short hike away, which cascades into the cool forest depths. A well maintained path leads guests to this magical spot. The mysterious emerald lagoon at Cerro Chato Volcano fills the now extinct crater. A challenging hike from the lodge takes guests through primary forest to a waiting canoe for a dreamy paddle on the lake's mirror surface. Birders will be particularly gratified during their visit. The diverse habitats surrounding the lodge shelter nearly 370 species. Guests can see birds everywhere.

DAYS 6/7 ~ SUNDAY/MONDAY ~ JUNE 25/26

MONTEVERDE CLOUD FOREST

Continue to Monteverde, one of the most beautiful cloud forests in the world. This afternoon, prepare yourself for a very unique experience, the Selvatura Treetop Walk on hanging bridges. You will be surprised to find yourself - like the birds - admiring Mother Nature from the top of the trees. This is because from the beginning of your walk you will be ascending - step-by-step - until you find yourself as high up as the vegetation that will surround you (from 150 to 510 feet). Here, a series of eight bridges await you in order to safely walk without any worries. The almost 2-mile walk is an unforgettable experience with the excitement of looking to one side and seeing the tops of the trees and at the same time feeling the sensation of walking among the clouds.

Your day is spent exploring the Monteverde community and the private Cloud Forest Reserve with your naturalist-guide. Monteverde is a rich and complex cloud forest reserve which protects six different ecological communities, making it a paradise for nature enthusiasts and a renowned field site for biological research. Note that a "cloud forest" differs from a "rain forest". In particular, a cloud forest will generally receive less rain on an annual basis than will a rain forest. However, a cloud forest generally has more humidity and (because of its higher altitudes) more cloudiness than a rain forest. The reserve encompasses about 10,000 acres, with many interesting trails to wander through the thick tropical vegetation. You'll recognize many familiar house plants growing freely in the wild, including schefflera, bromeliads, and ferns, as well as some more exotic species. Although it's difficult to spot them, more than 320 species of birds are resident, including the seasonal Resplendent Quetzal, considered by many to be the most beautiful bird in the Americas, as well as the Three-wattled Bellbird, Black Guan, Umbrellabird,

Spangled-cheeked Tanager, Orange-bellied Trogon, Emerald Toucanet (you usually hear them more than see them), and numerous other specialties. Among the 100 species of mammals are the Baird's tapir, jaguar and ocelot (all rarely seen), howler monkey, kinkajou, and prehensile-tailed porcupine.

For the adventurous at heart there is an optional (*extra cost*) exhilarating excursion available at the Sky Trek, a system of trails, suspension bridges, and zip lines that offers visitors the opportunity to observe and appreciate tropical vegetation from different vantage points. The system is integrated with a gorgeous Cloud Forest trail, 1 ½ miles long. Enjoy a different perspective of the Monteverde Cloud Forest that not many people have a chance to see – as most of the wildlife found in the Cloud Forest is living or feeding in the tree tops. Along with the 11 cables zipping through the canopy forest, two suspended bridges 160 feet off the ground, and some of the most beautiful trails in the Cloud Forest, take advantage of the Sky Trek's observation tower that is 70 feet off the ground, where on clear days you can see the Arenal Volcano. This view reveals lush green gardens of mosses, ferns, flowers, and epiphytes growing on every tree.

Hotel & Spa Poco a Poco is the result of years of hard work and foresighted decisions; a nonstop process of improvement in quality and services. During your stay, enjoy the beautiful, heated, covered swimming pool and Jacuzzi; wet bar, workout room, beautifully kept gardens and common outdoor areas. The hotel's Spa is one of the highlights, with very affordable prices and a more natural style in treatments and products. Kid's play house and pool section provide great entertainment for families traveling to Monteverde. Otocuma restaurant has the best fusion of native and foreign cuisine: it is one of the best options in Monteverde.

OPTIONAL POST-EXTENSION TO CENTRAL PACIFIC

DAYS 8/9 ~ TUESDAY/WEDNESDAY ~ JUNE 27/28

CARARA BIOLOGICAL RESERVE / TARCOLES RIVER

Bid farewell to the rest of the group returning to San Jose and to the USA, and drive through the scenic countryside to yet another exciting destination. Continue to Villa Lapas which is located in the transition zone between the dry and moist forest of the Pacific lowlands. En route, you will stop at the Tarcoles River which is legendary for bearing one of the most important crocodile populations in Costa Rica. Some of these animals reach more than 12 feet long. In addition to the crocodiles, you can also watch the great diversity of birds of this area, including Roseate Spoonbills, Wood Storks, Pelicans, Frigatebirds, Scarlet Macaws and countless others.

Also explore the Carara Biological Reserve, a living laboratory for scientists and nature enthusiasts alike and among the areas of the greatest biodiversity in the country. Despite its relatively small size, Carara houses several ecosystems, such as marshland, a lagoon, and gallery, secondary and primary forests. The lush green vegetation of the reserve contrasts vividly with the dry, barren hills that surround it from which crystal-clear rivers flow. One of these is the Carara River, which gave the park its name. During the rainy season, the Tarcoles floods its banks, creating a large lagoon that quickly fills with water hyacinth and other floating plants. Crocodiles and caimans are easily spotted along with plenty of wading birds - Roseate Spoonbills, Anhingas, Jacanas, Pied-billed Grebes, and Bare-throated Tiger-Heron. In the forest refuge, visitors can appreciate the beauty of a rare mix of varied tropical vegetation. Coatimundis, peccaries, white-face capuchin, howler and spider monkeys, and the rare-two toed sloth can all be found here along with a great variety of plant life including fabulous heliconias. Carara is one of the few nesting areas

remaining for the Scarlet Macaw. Throughout the day, the macaws can always be heard and often seen in flight, particularly around dusk. There are two paths in the reserve, one starts at the main entrance and takes a short circular route; the other begins a mile or so away and passes the lagoon. As you hike along the trails in Carara, the birdsong and sounds of the jungle give it an air of adventure.

Your home for the next two nights, the Villa Caletas is overlooking a beautiful coastline, and the breathtaking views bring the country to life. From each side of the mountain, rainforests spread to the sandy, quiet beaches below. The dark, emerald green of this wild, native vegetation contrasts with the blues of the Pacific Ocean. Views of lush tropical rainforests complement some of the most breathtaking sunsets you will witness. At the bottom of the mountain, Villa Caletas offers its own private beach, but at the top, it offers an incredible pool. Mainly renowned for the flocks of colorful, Scarlet Macaws, the region is preferred among nature enthusiasts, and is the host of several biological reserves and wildlife refuges. And if you're interested in shopping and night life, the thriving, tourist town of Jacó lays a short drive to the south.

The Hotel design is influenced by the charm of French-colonial architecture and Victorian homes still found in San José. Your every comfort has been considered while you are surrounded by the authentic and nostalgic atmosphere of the hotel. Villa Caletas combines the truly unique concept of both mountain and seaside resort. Its location and design offer seaside breezes along with the fresh mountain air. Its exceptional hilltop location, more than 1,150 feet above the Pacific Ocean, combined with turn-of-the-century style and gardens, gives Villa Caletas a unique position among the resorts, hotels, and restaurants of Costa Rica – a jewel above the crashing sea. The hotel's most remarkable asset is its Greek amphitheater; set into the mountainside you have spectacular panoramic views of the Nicoya Peninsula, gulf islands, the crescent beaches of Jacó, Herradura and Punta Leona as well as the mountains.

DAYS 10/11~ THURSDAY/FRIDAY ~ JUNE 29/30
MANUEL ANTONIO NATIONAL PARK

You will visit another Costa Rican national treasure today – Manuel Antonio National Park, just south of Quepos on the Pacific Coast, 132 kms from San José. The Park's two white sandy beaches, Espadilla Sur and Manuel Antonio, stand out as its main attractions. Just off shore are twelve islands, most of them without vegetation, but excellent seabird sanctuaries nonetheless. Punta Cathedral was an island at one time, an accumulation of the sediments joined to the land with a sandy belt named Tombo, a prized nesting site for the Brown booby. You may see dolphins here, and once in a while a pod of migratory whales. There are more than 100 mammal species and 180 species of birds, including the rare White Ibis. Squirrel monkeys (another endangered species) play in the trees above the trails in the Park. In addition, you may see two-toed sloths, raccoons, white-nosed coatis, howler and white-faced monkeys and

squirrels. Take your pick of any one of several short trails that meander through the park, passing scenic overlooks and white-sand beaches (the second beach is one of Costa Rica's safest swimming beaches, and is also a good place for snorkeling). The most popular trail is the small loop that takes you around Punta Cathedral and pays off with a wonderful view of the Pacific. El Perezoso takes you to Playa Blanca. El Puerto Escondido and El Mirador trails take you through the dense humid tropical forests to Playa Puerto Escondido. With its' stunning, picture-postcard backdrop, and miles of white sandy beaches it's easy to see why Manuel Antonio National Park is Costa Rica's most popular. Return to your hotel, where the remainder of your day is at leisure.

Situated right in the heart of Costa Rica's most electrifying Pacific coastal region and close to the small sport fishing town of Quepos, hidden away in its own private world of lush jungle and gardens and only minutes away from the world-renowned Manuel Antonio National Park, El Parador offers a private and serene ambiance in a tropical paradise. All rooms have balconies and offer spectacular views of the Pacific Ocean, the rainforest and the gardens surrounding the hotel. Tastefully decorated, your room includes room service, cable TV, air-conditioning, minibar, coffee maker, telephone, safety deposit box, ceiling fans, and hair dryers

THINGS YOU NEED TO KNOW ABOUT COSTA RICA

Participants

- Participants must be able to climb in and out of buses and boats unassisted. You should also be able to tolerate nature walks at an easy pace on uneven terrain, sometimes uphill, for three or four hours at a time in heat and humidity.
- You should be in good physical health to enjoy this destination to its fullest.

In general, this trip requires:

- Flexibility and good humor – unexpected changes and/or glitches will occur.
- A spirit of adventure and curiosity.
- Interest in and willingness to appreciate a destination with a modest infrastructure and a range in availability of modern comforts. That being said, some locations are nestled in absolute luxury where pampering is the norm.

Air Schedules

Choosing the best possible air arrangements for our travelers is always a challenge. We work with many airlines that offer the best level of service, routings and value for our programs. While there may indeed be more direct routings available with another airline, the cost of these flights may not be within the budget that allows us to give you the best value possible. If you prefer to purchase your own international air, please feel free to choose the “land only” rate for this program. **The start and end city for this program is San Jose, Costa Rica.**

Upon registration, you must provide your full legal name as it appears on your passport. In the event an airline ticket is issued with incorrect information you have provided, you will be responsible for charges associated with reissuing the ticket.

BRING-A-BOOK FOUNDATION

Your tour may include a visit to a local school. We encourage you to bring colorful books and magazines, particularly if you can get them in Spanish, as well as school supplies such as pens, paper, crayons, soccer balls, etc., which you can present to the children during your visit. You'll find that children in the schools are eager to meet with visitors, practice their English, learn about your culture and proudly share their own. You are often welcomed with a local song or dance. After seeing schools first hand, meeting the dedicated teachers, often working under difficult conditions, and children hungry for knowledge, many travelers have wanted to help the schools they visited or continue to support a child's learning opportunities after they return to their homes. Bring-A-Book is an innovative effort adopted by Classic Escapes to expand education opportunities for school children. The Bring-A-Book Foundation is a registered Charitable Trust that was created as a way to facilitate travelers' wishes to help the schools and is used to get books into the hands of children as quickly and economically as possible. Information will be given to you with your final documents, but if you wish to help further, feel free to call Classic Escapes at 800-627-1244 for details.

CLASSIC ESCAPES CONSERVATION FUND

In keeping with our mission to provide exciting, educational, and fun-filled experiences that nurture and directly support the diverse wildlife and cultures we visit around the world, Classic Escapes has established the Classic Escapes Conservation Fund to ensure that a percentage of all profits go to support conservation and wildlife researchers performing their critical work in the field. Project support has included wild dog, elephant, rhino and cheetah conservation in Botswana, Kenya, Tanzania and Namibia, penguins in Punta San Juan Peru, tiger preservation in India, and sponsoring school children in Kenya, among many other projects around the world. AIRLINE SEATING: For DELTA AIR LINES, we request seats together for the group. All planes are non-smoking. We can request a seating preference on your behalf, however requested seats cannot be guaranteed. Requests should be made in writing no later than 60 days prior to departure. Bulkhead and/or emergency row seats can only be requested at airport check-in on the day of departure. Boarding passes will only be issued at the airport on the day of departure. You may inquire about seat changes during check in, based on availability and is at the sole discretion of airport staff.

FREQUENT FLYER MILEAGE: As mentioned, we work primarily with DELTA AIRLINES. For a list of the airline's partners, visit http://www.delta.com/content/www/en_US/skymiles.html. Obtain frequent flyer mileage on any of these carriers. Present your frequent flyer card for all flight check-ins and keep the boarding passes until you receive a statement with the mileage credit.

TRANSFERS: Roundtrip airport transfers are included in the tour for guests arriving on group flights. If travelers make their own air arrangements, they will be subject to extra transfer fees.

TRIP DETAILS

ACCOMMODATIONS: You will marvel at the wonderful accommodations provided throughout your tour. All rooms have private bathroom facilities and air conditioning and/or fans. All rates are based on double occupancy. Most rooms are twin-bedded, but king-size beds are occasionally available and should be requested in advance. Accommodations listed in this itinerary are correct at time of writing, but on rare occasions may be substituted for a different property of comparable quality.

MEALS: All meals as specified in the itinerary. Please notify us if you have special dietary needs or requests, and we will do our best to accommodate.

INOCULATIONS: When it comes to vaccination and disease prevention, we suggest that travelers first review information provided by the U.S. Centers for Disease Control and Prevention (www.cdc.gov/travel) and then review those details with their personal physicians.

WATER: It is always advisable to drink bottled and/or filtered water when traveling overseas. Safe drinking water will be provided to travelers free of charge in the vehicles and during meals.

BAGGAGE: On average, international flights from the USA allow two pieces of checked luggage, each not exceeding 50 pounds; however we always recommend that you check your airline's policy just before departure, as luggage limitations are always subject to change. Despite this weight allowance, we always suggest guests travel light. Also soft-sided duffel bags are ideal for this tour, as they stow best in vehicles and airplanes with limited space.
